## Announcement.

TO MEMBERS OF THE FACULTY AND STUDENTS:

80011-151909

The program outlined on the following pages gives in a succinct way the work to be done during the coming school year, beginning September 1st. A great deal of care has been taken to make this program thorough and accurate. It outlines in a comprehensive way, faculty meetings, departmental meetings, literary society programs, class meetings and other matters of general interest to all students and instructors. A very careful program for the Saturday evenings has been prepared; also an extensive program for meetings of the academic teachers. I believe a program of this kind has much value. It saves time, does away with friction and avoids entanglements. Anyone connected with the institution can quickly learn what will take place on any evening, and can plan his or her own work accordingly.

System and organization is the watchword of the day. Although it is sometimes unwise to lay down a hard and fast rule, whenever an organization or system is determined upon, it must be carried out. A regulation is useless unless enforced; it is effective in so far as its provisions are carried out with promptness and regularity.

It may be that certain changes may be necessary in this program, but at this time, we do not contemplate any. Practically all of the events scheduled have been arranged for; therefore, it seems advisable that, before making a change, approval should be obtained from the superintendent. If a meeting scheduled to take place cannot be carried out, there should be some valid reason for the same, or permission for canceling it will not be granted. As all of the employees who will take part have been notified, it seems reasonable to expect that, unless some unforeseen obstacle intervenes, the schedule will be adhered to.

I believe that the best results can only be obtained when every student and employee does his or her part, however small, to make the school successful, not only in the department in which he or she is interested, but in all its relationships as well. Harmony is absolutely essential; co-operation cannot be dispensed with.

Very respectfully,

M. FRIEDMAN,  
Superintendent.
